

OHV'S VENTURE ACTIVITIES

EGBERT VAN DER VEEN, MANAGING DIRECTOR OHV VENTURE CAPITAL & HEAD OF STRATEGY OHV
18 JANUARY 2022

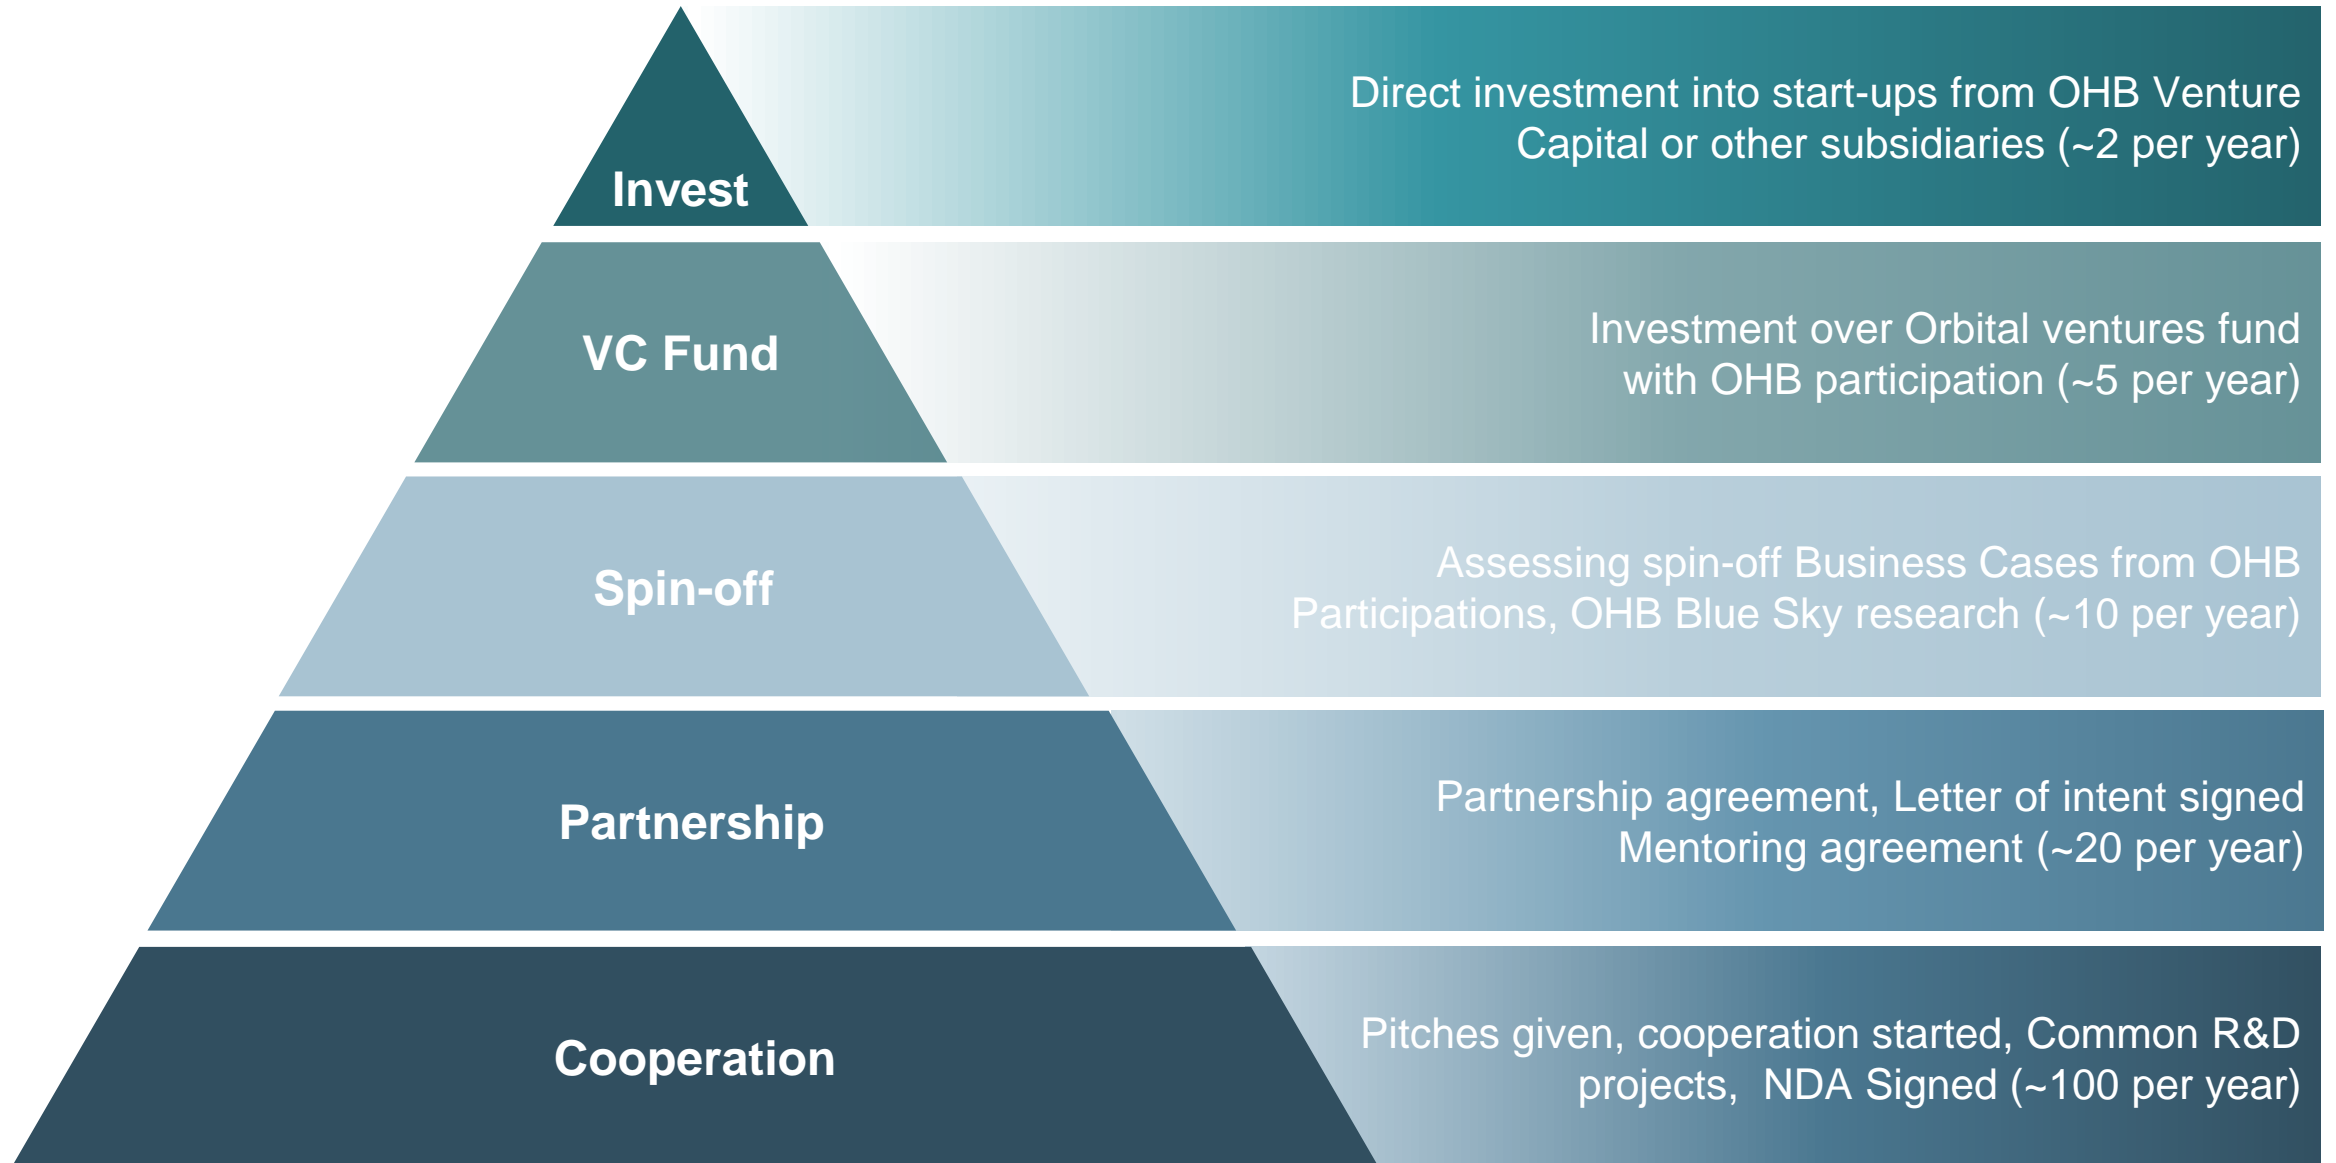

- Focus on opportunities that align with OH B's corporate strategy
- Investment in ideas that provide synergies with OH B products and customers
- Mission: Develop space based solutions that sustainably improve life on earth

WHY IS OHV INTERESTING FOR START-UPS?

- Attractive **company culture**
- **Technical support** and **contributions** for:
 - Satellite systems
 - Launch systems
 - Ground segment and operations
 - Downstream application and services
- **Business model** validation
- Improve access to **financing** and **R&D funding**
- Access to **customers, partners** and **suppliers**

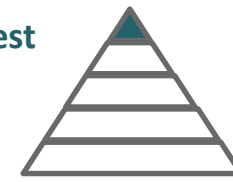

LEVEL OF ENGAGEMENT

SPACELINK

Invest

Profile

- SpaceLink provides secure continuous connectivity to LEO spacecraft by a fleet of data relay satellites in MEO

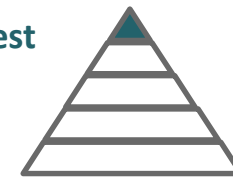

Partnership

- OH B System secured a future contract with SpaceLink Corp. for the development and production of four relay satellites

OH B Ventures

- Intended investment of 25M\$ by OH B

 Routing All modes, shortest route, most likely or greenest.	 CO₂ Granular data, all modes available in statistics or history.	 Tracking Shippers can follow the position of their shipment in real time or in replay
 Geocoding Port, Airport, City and Zipcode informations.	 ETA The power of our routing API combined with our tracking API to offer estimations of arrival times.	 Weather Wave, Current and Winds, and how likely they are to cause delays.

Profile

- API allowing for CO2 prediction and reporting of various transport routes (Sea, Air, Road, Railway)

Partnership

- Sales of AIS data from Luxspace to Searoutes
- Co-development of new Maritime data insight products with OH B DIGITAL
- Inclusion of more satellite based data to improve accuracy of CO2 reporting

OH B Ventures

- OH B Venture Capital participated in the Seed round for Searoutes

Profile

- Enabling precision irrigation using infrared data

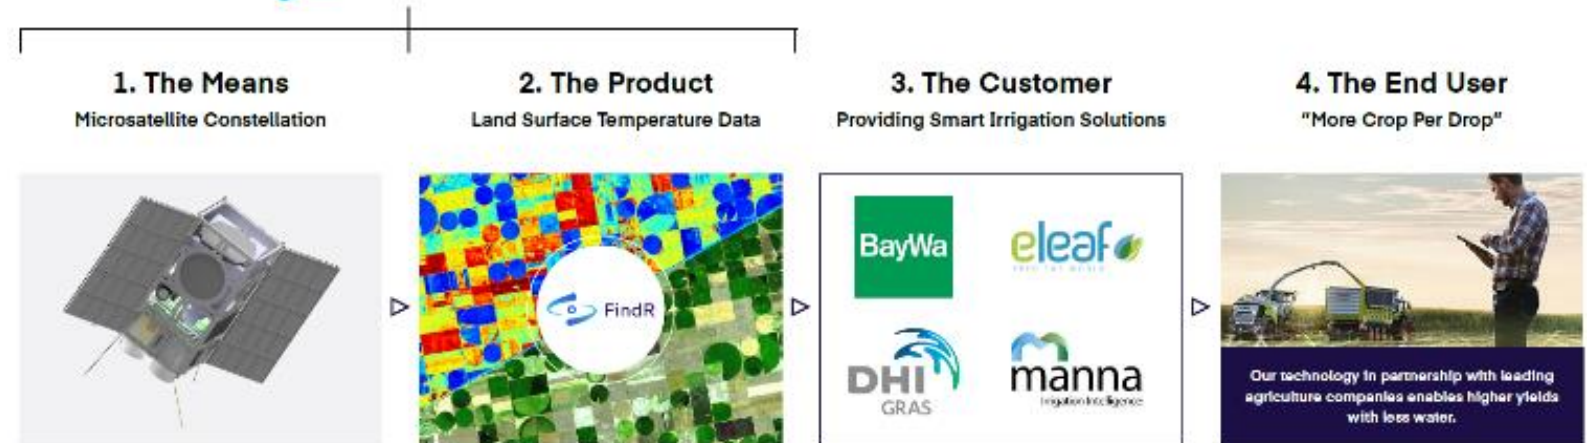

Partnership

- **OH B System** will be responsible for developing the payload and strategic partner for follow-up missions
- **Luxspace** and **OH B Sweden** are in the running to provide the platform for future missions
- **OH B DIGITAL** will develop and commercialize downstream services and products based on ConstellR data

OH B Ventures

- **OH B Venture Capital** participated in the Pre-seed round for ConstellR

Food security through temperature data. **From space.**

ORBITAL VENTURES

VC Fund

Profile

- 120M€ fund size managed by Promus ventures
- Recent investments in:
 - Isotropic systems
 - Ellipsis drive
 - Fernride
 - Akasha Imaging
 - Recycleye
 - Wakeo

Partnership

- Seat at Industrial Advisory Board

OHB Ventures

- 7M€ fund participation by OHB, one of the top five investors

ROCKET FACTORY AUGSBURG

Profile

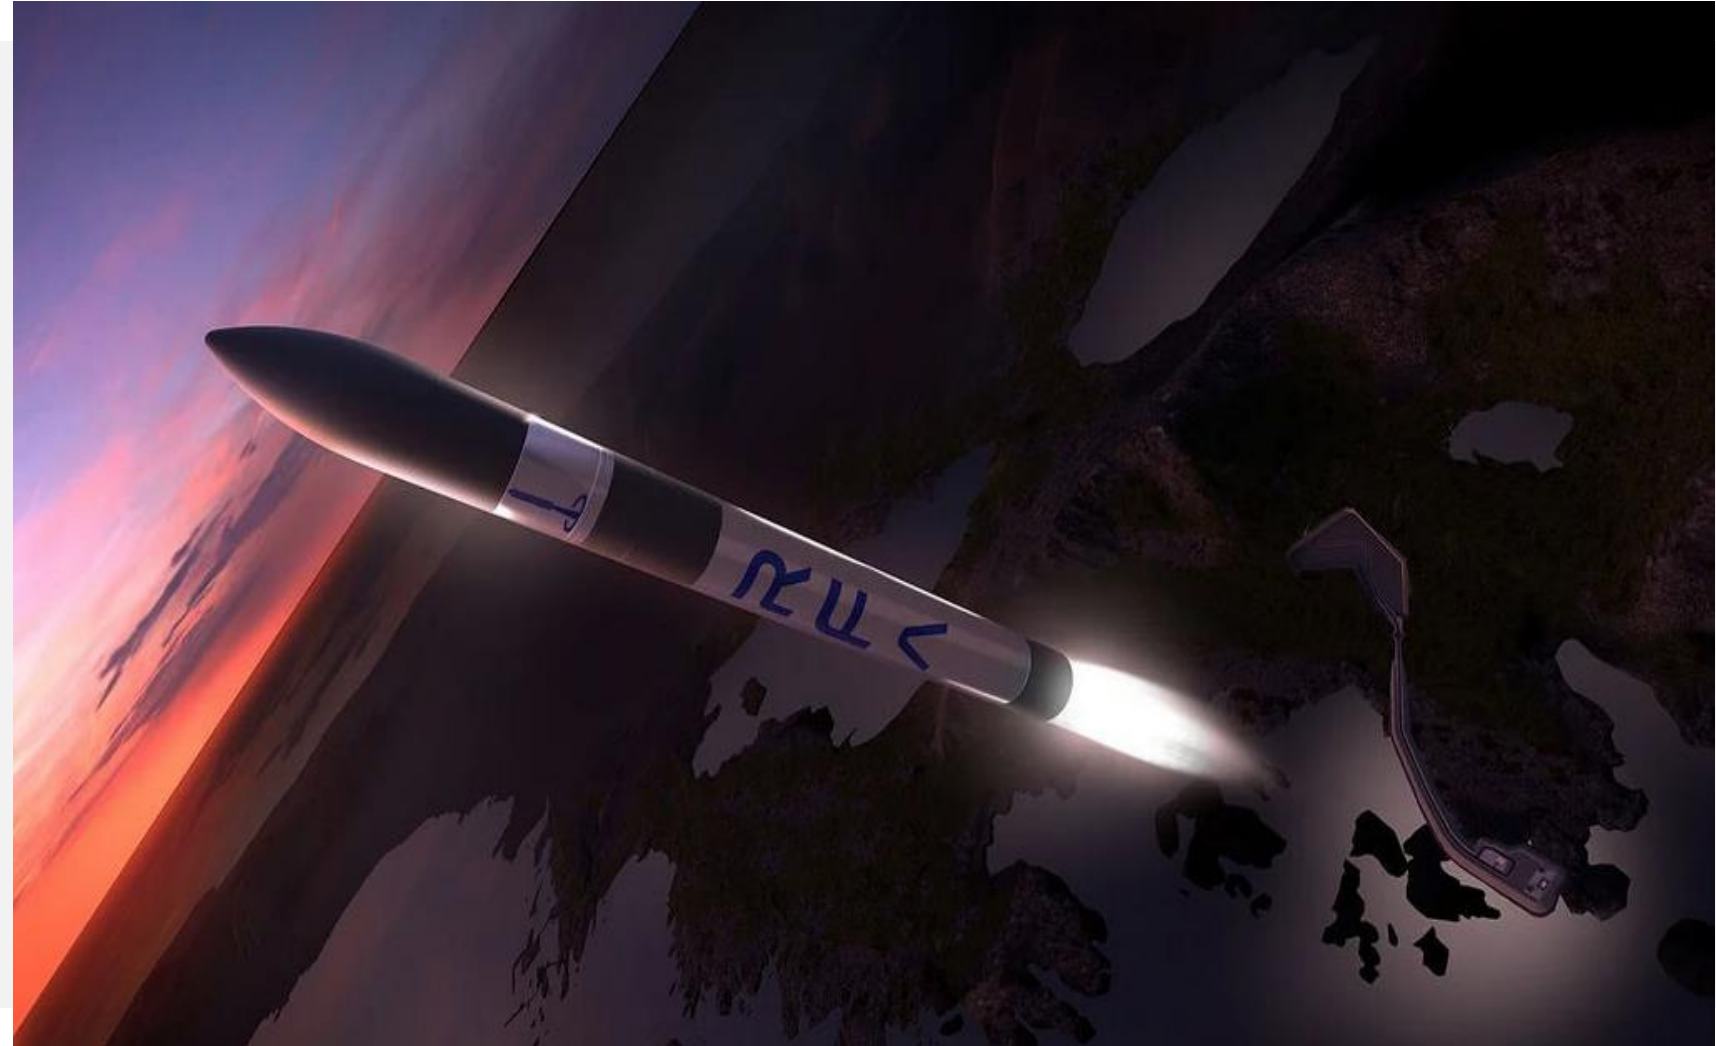

- Development and operation of highly efficient launchers and in-orbit services

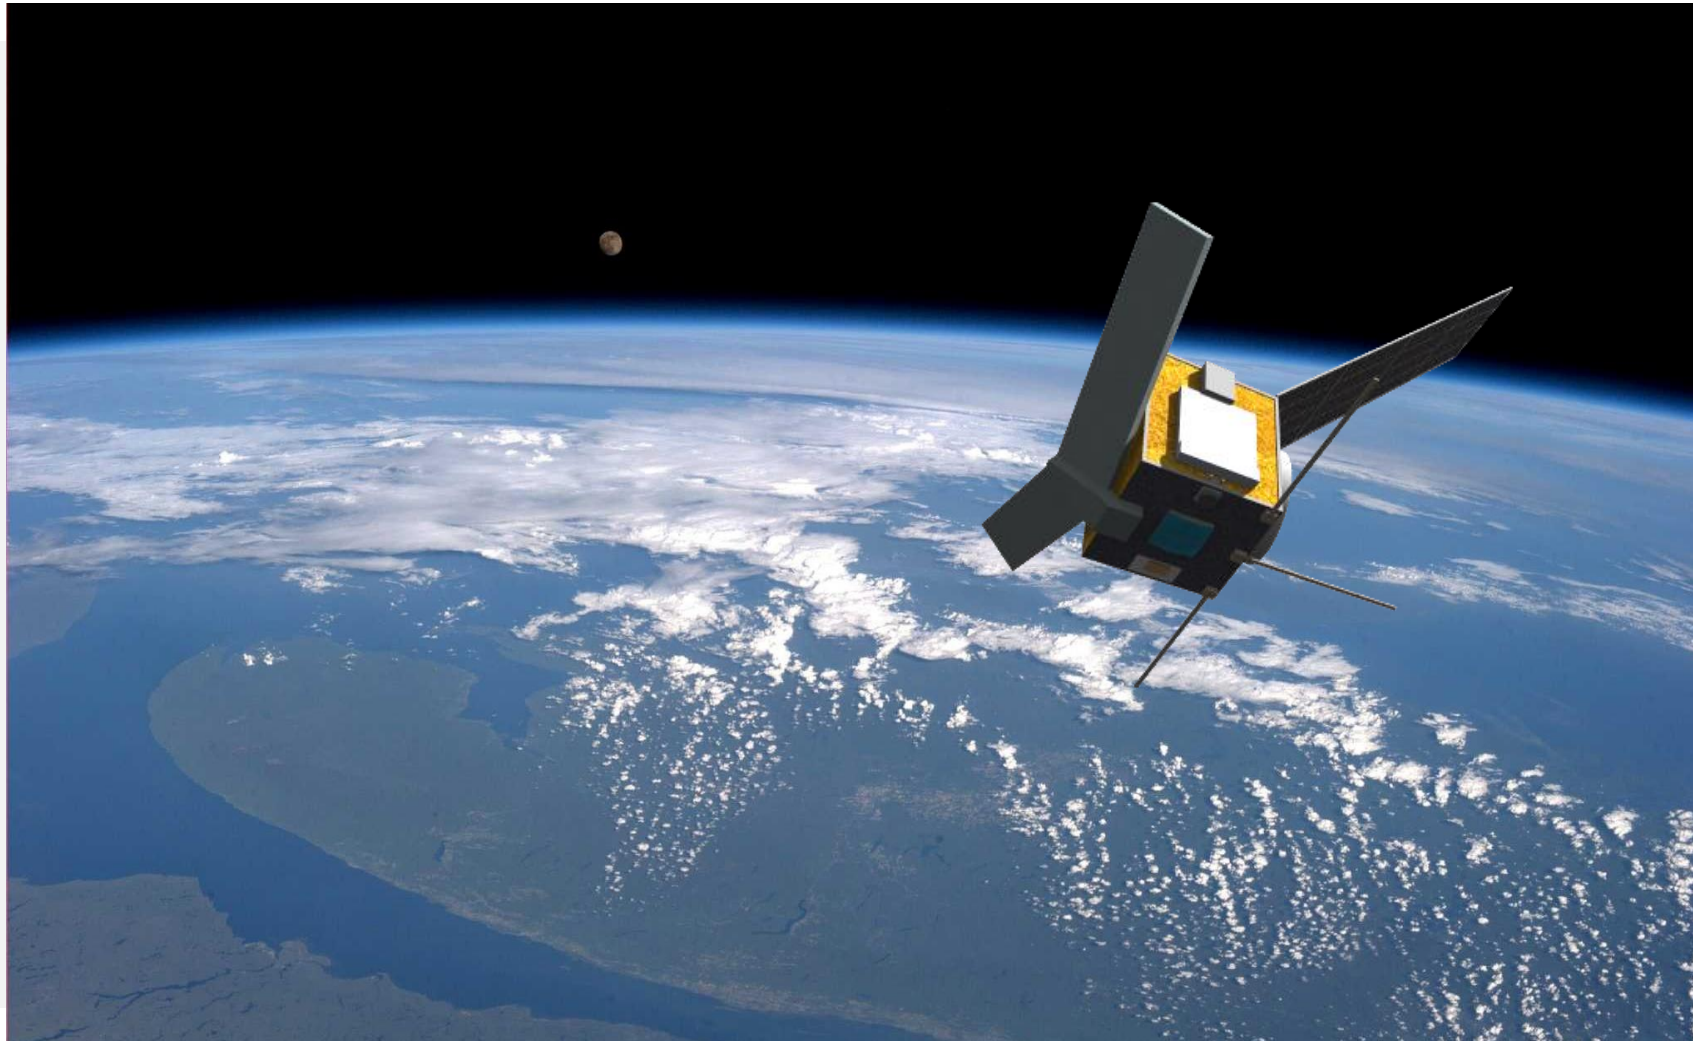

Partnership

- Launch service agreement with OHB for 5 launches per year
- Spin-off from OHB's subsidiary MT Aerospace

OHB Ventures

- OHB majority shareholder (Arm's length principle)

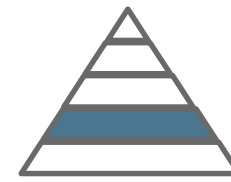

Profile

- Aims at developing a ship-based navigational radar identification service
- Detection of the so called “dark targets”
- Essential to combat:
 - Illegal fishing
 - Ships taking illegal shortcuts over nature reserves (e.g. Great barrier reef, Galapagos)
 - Illegal operations (drug trafficking, waste dumping, ...)

OHB Ventures

- Supporting planned spin-off

Profile

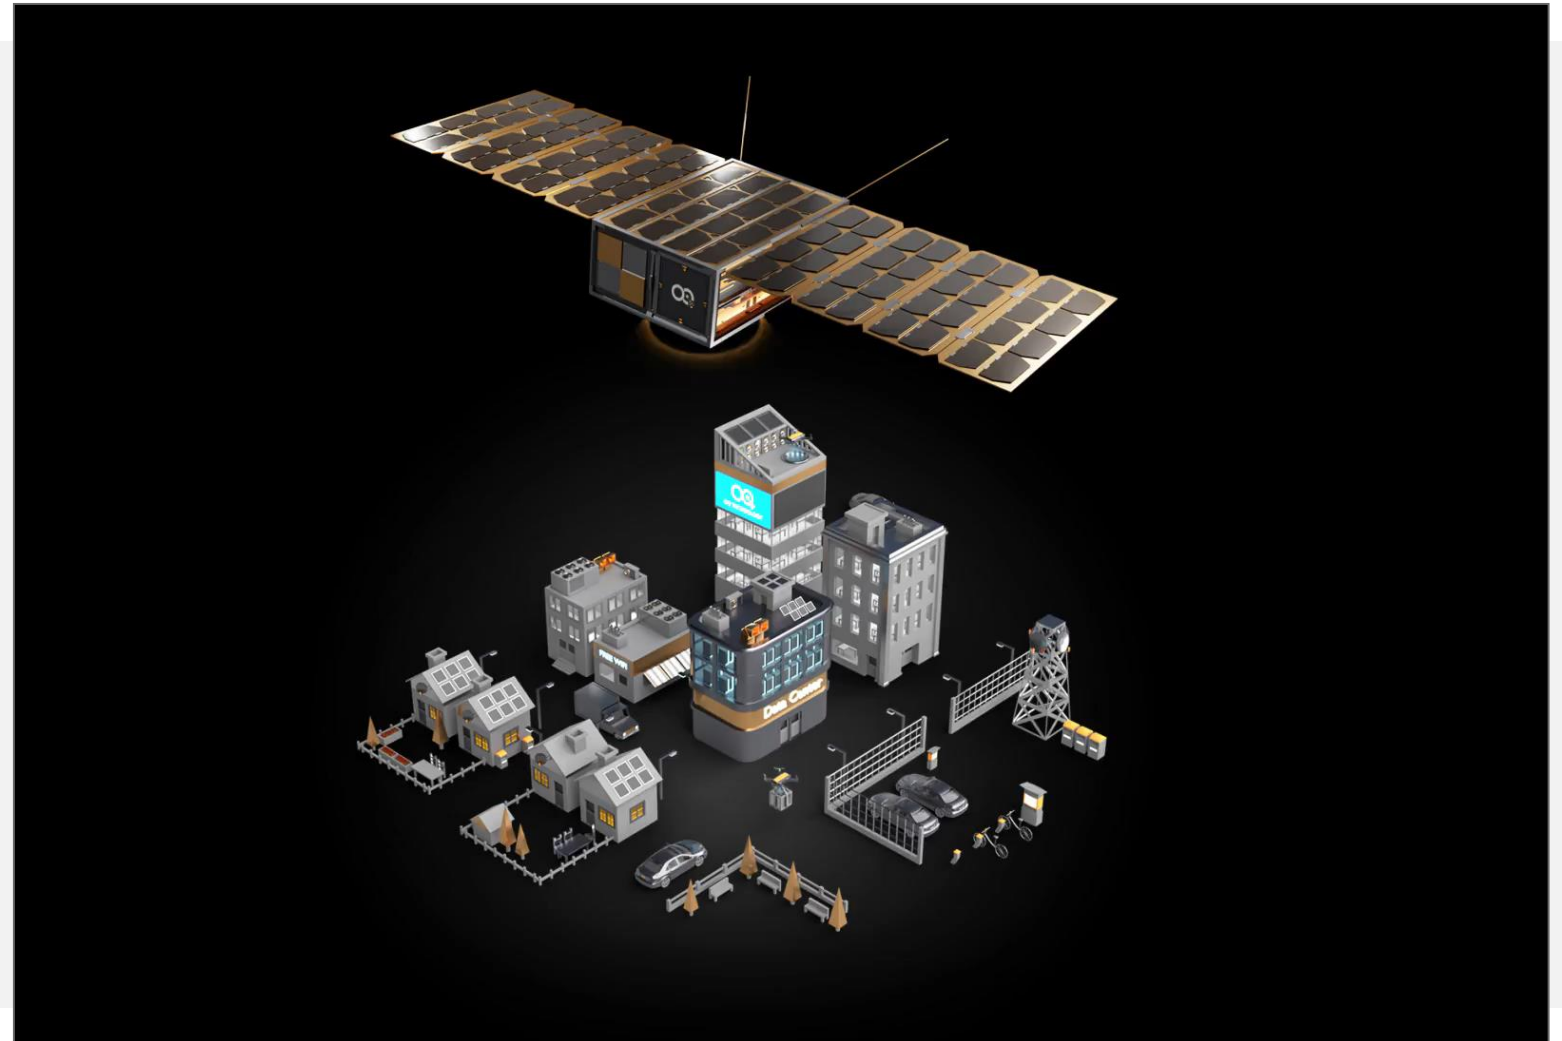

- Satellite based IoT
- End-to-end satellite 5G integrated solution

Partnership

- Collaboration in development of IoT service models
- Assess the use of LuxSpace Triton-X platform
- Assessment of the provision of other Space system solutions to OQ Technology

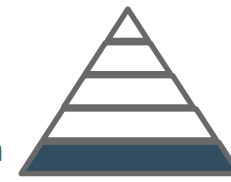

OHV Ventures

- Assessing potential investment

CONCLUSION

Cooperation

OHB

Several new ventures and partnerships are being discussed:

- Commercial telecom constellations
- Commercial space stations
- Commercial orbital tugs and satellite servicing & refueling
- Commercial lunar services
- Commercial orbital debris removal
- Global carbon monitoring system
- Dozens of downstream services
- and many more...

OHB aims to announce more Venture activities in 2022

This is only the beginning!
